

THE SMALLEST
DEVICE FROM A
TRUSTED LEADER

MASKS DESIGNED FOR YOU

AirFit™ P10 for AirMini (Nasal pillow)

AirFit™ N20 (Nasal mask)

AirFit™ F20 (Full-face mask)

As an industry leader, we are proud to introduce the world's smallest CPAP device, which is engineered to deliver the best quality of therapy. Whether you are a new or experienced user, the pocket-sized **AirMini™** combines advanced algorithms with latest technology innovations like HumidX™ waterless humidification designed to deliver a comfortable therapy experience.

AirMini™ has been designed to work with our latest AirFit™ 20 series and AirFit™ P10 for **AirMini™** masks. You can choose from a range of nasal pillows, nasal and full face options - each designed to deliver optimal sleep therapy wherever you sleep.

A NEW
CONTEMPORARY DESIGN

AirMini is sleep therapy as it should be - sleep, modern and compact with smart technology. Experience a new level of confidence with a design that sits discretely in your bedroom or neatly packed away when you travel. It's an experience that's all yours and that's just the beginning.

CONVENIENT
CONTROL WITH
AirMini™ APP

ResMed's **AirMini™** App lets you control your **AirMini™** using selected smart devices via Bluetooth. Simply download the app and easy to follow steps will allow for quick and easy therapy set up. The **AirMini™** App also provides you with your 30-day therapy history and daily sleep score each morning, so you can track your progress and schedule in goals for greater success.
