

Air11™

The smart way to sleep

[Resmed.com/AirCurve11](https://resmed.com/AirCurve11)

[Resmed.com/AirSense11](https://resmed.com/AirSense11)

Therapy that keeps getting smarter

Designed to evolve with you, Air11™ devices combine connected technology, intuitive features and personalised support to help make therapy easier from day one.

1. **Simple touchscreen control** at your fingertips.
2. **Heated humidification** with automatic climate control.*
3. **Bluetooth® pairing** with myAir™ enhanced digital experience.
4. **Built-in cellular connectivity†** for automatic therapy data syncing.
5. **Over-the-air updates** automatically deliver the latest features to your device.

*Climate Control Auto is only available when both the HumidAir 11 tub and ClimateLineAir™ 11 are attached.

†Cellular connectivity depends on network availability.

Which therapy is right for you?

For people with obstructive sleep apnea (OSA), therapy needs can vary. Whether you need fixed-pressure CPAP, auto-adjusting APAP or auto-adjusting bilevel therapy, Resmed has a solution designed to meet your needs.

AirCurve™ 11 VAuto (Bilevel)

Uses different pressure levels for breathing in and breathing out. The technology follows your natural breathing pattern and adjusts throughout the night to deliver a more comfortable therapy experience. Suitable for people who need extra pressure support or struggle with standard PAP therapy.

AirCurve™ 11

Extra support.

More natural breathing.

Ideal for people with OSA who need extra pressure support or greater breathing comfort.

AirCurve 11 VAuto

Recommended for	New and experienced PAP users looking for a smarter way to sleep with a more natural and comfortable therapy experience.
Therapy	Auto-adjusting pressure with additional support for greater breathing comfort.
Pressure delivery	Bilevel: higher pressure when you breathe in and lower pressure when you breathe out.

AirSense™ 11 Elite (CPAP) & AutoSet™ (APAP)

Provides continuous air pressure to help keep your airway open while you sleep. Elite provides fixed-pressure CPAP therapy, while AutoSet automatically adjusts pressure according to your breathing needs throughout the night.

AirSense™ 11

Next generation PAP therapy.

Ideal for people with OSA looking for a simple and connected therapy experience.

Scan QR code for more info.

AirSense 11 Elite & AutoSet

Recommended for	New and experienced CPAP users looking for a smarter way to sleep.
Therapy	Standard CPAP/APAP therapy with comfort features to support therapy adherence.
Pressure delivery	Single-level pressure, with optional pressure relief when you breathe out.

Digital tools designed around you

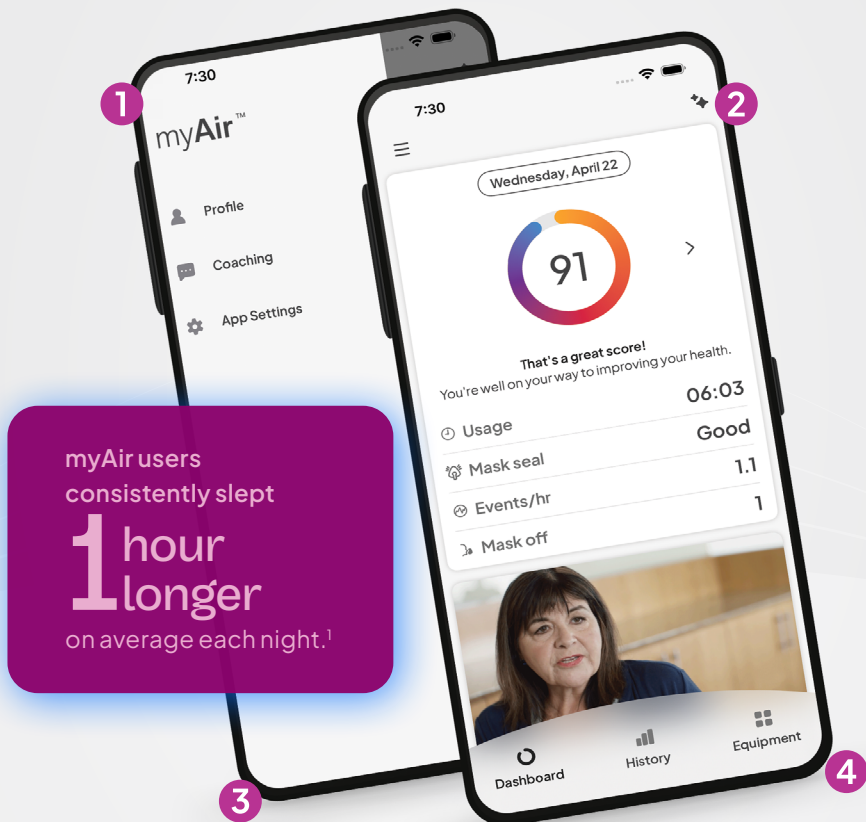

Together with myAir, Air11 devices combine personalised insights, therapy tracking, coaching and support tools to help you get the most from your therapy.

1. Dawn™ 24/7 Digital Assistant‡

Get instant answers and guidance whenever you need help with therapy.

2. Personal Therapy Assistant

Access voice-guided setup and training support to help you get started with confidence.

3. Test Drive

Familiarise yourself with therapy before bedtime and build confidence using your device.

4. Care Check-In

Receive tailored coaching and encouragement to help keep your therapy on track.

‡ Dawn may not be available in all regions.

Why choose Air11?

When you choose an Air11 device, you're getting more than a CPAP or bilevel device. You're stepping into a connected sleep therapy experience where your Air11 device, Resmed mask and digital support tools work together to help make therapy easier, more comfortable and personalised to your needs.²

Ready to upgrade your sleep?

Air11 devices are packed with smart features and tailored support designed to help you start therapy with confidence and stay on track.
