

## Masks specifically designed just for Her

Did you know there are specific differences between the ways in which men and women sleep? We designed our For Her range of masks to give every woman a more personalised solution that better meets her facial features and adapts to the way she sleeps.

## myAir™: Your own personal sleep coach

How well is your sleep therapy working? Track your progress every day thanks to myAir, a free web application and online support program that shows you how well you slept each night and gives you tips to improve your sleep.

-  Check your daily myAir score to see how well you slept.
-  Celebrate milestones in your treatment with badges.
-  Get tips by email or text message to learn how to improve your comfort or sleep better.
-  Receive alerts if something is wrong with your mask or machine, and tips on how to fix them.

# AirFit series masks: easy to fit, simple to use

Comfortable and easy to use: these are the two principles that underlie all masks in the AirFit series. We want therapy to be as easy for you as possible — regardless of the type of mask you choose.

AirFit series masks come in a range of models — full-face, nasal and pillows — to meet individual needs and preferences of all kinds. And they all provide a clear field of vision, too!

## The AirFit 20 series

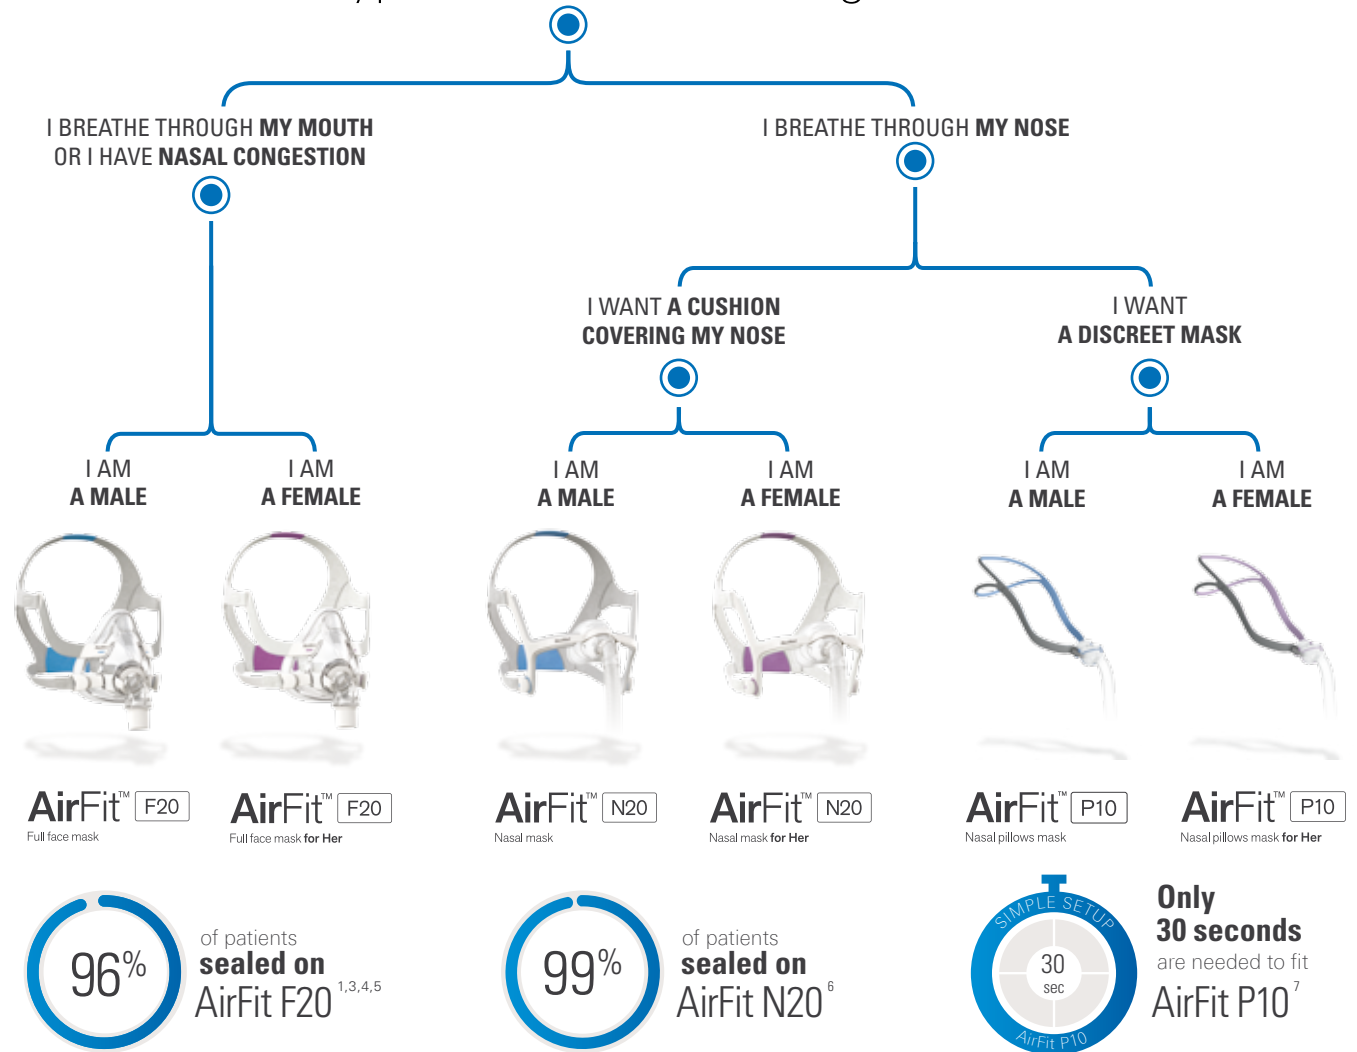

Every face is different. AirFit N20 and AirFit F20 feature the innovative InfinitySeal™ silicone cushion that adapts to your unique contours to deliver a secure and comfortable fit, regardless of your face shape and size.

## Patient tested and preferred

Studies have shown that, when comparing against the current market-leading full-face mask, 86% of patients preferred the seal of AirFit F20, while in an equivalent study against the current market-leading nasal mask, 92% preferred AirFit N20.<sup>1,2</sup>

# What type of mask should I get?

- Innovative InfinitySeal cushion designed to accommodate your movements
- Easy to use magnetic clips enable quick fitting
- Flexible fabric-lined frame delivers breadth of fit while adding comfort
- Plush headgear assists in giving a more comfortable night's therapy

- Our quietest mask ever<sup>8</sup>
- Advanced QuickFit™ elastic headgear, that provides stability and adjustability with minimal facial contact

<sup>1</sup> ResMed internal study of 22 existing ResMed patients, conducted between 26/04/2016 – 27/05/2016 comparing the market leading mask with AirFit F20. Preliminary patient study – data on file; ID A3810791.

<sup>2</sup> ResMed internal study of 24 existing ResMed patients, conducted between 23/11/2015 - 21/12/2015 comparing the market leading mask with AirFit N20; ID A3695085.

<sup>3</sup> ResMed AirFit F20 internal fitting study of 27 ResMed and non-ResMed patients, conducted between 30/03/2016 – 04/04/2016. Preliminary patient study – data on file; ID A3751086.

<sup>4</sup> ResMed AirFit F20 internal international fitting study of 34 ResMed and non-ResMed patients, conducted between 11/04/2016 – 15/04/2016. Preliminary patient study – data on file; ID A3774922.
