

Swing into Quattro FX

Achieving an effective seal is the key to successful therapy; but it needn't be complicated. Quattro FX introduces the two-step Swing Seal fitting technique: for a secure seal first time, every time.

- 1 Firstly position the cushion at an angle on the nasal bridge ...
- 2 ... then **swing** the lower half of the mask down against the face to **seal**.

Simply swing, and seal.

Quattro™ FX
FULL FACE MASK

Less mask. **More you.**

The unobtrusive alternative

It may be called a full face mask, but it certainly doesn't look like one! Compared to conventional full face masks, Quattro FX is light and unobtrusive, giving you an effective alternative, and a sense of freedom, in full face therapy.

Support and freedom

Quattro FX provides the perfect balance of stability and flexibility. The contoured headgear design stabilises the mask on your face, and the Spring Air™ cushion is soft, comfortable and secures your seal even if you move around in your sleep.

A mask you'll feel good about

Being on therapy doesn't mean losing your sense of self. Even though it's a full face mask, Quattro FX starts mid-way on the nasal bridge, giving you a clear line of sight and a feeling of openness. So you'll enjoy a good night's sleep and wake up to a new day with a renewed outlook on your mask and your health.
