# AirMini™ Solutions

Rewrite your bedtime story

[ResMed.com/AirMini](https://www.ResMed.com/AirMini)

# AirMini: effective compact therapy without compromise

Made by ResMed, AirMini solutions deliver sleep therapy that's just as good as the therapy delivered by our other market-leading devices<sup>1</sup>. But AirMini does it in a compact, travel-friendly package.

AirMini solutions are designed to provide effective therapy at its most comfortable and mobile. You don't have to choose between therapy performance, better health and freedom anymore.

## HumidX™ waterless humidification\*

Compact and discreet, HumidX, HumidX Plus and HumidX F20 are a good choice for patients looking to experience therapy comfort on the go.

## ActiveAir™

This crucial technology regulates airflow to keep pressure delivery stable and comfortable at all levels.

\* HumidX and HumidX Plus are only compatible with AirFit N20, AirTouch N20, AirFit N30 and AirFit P10 for AirMini masks. HumidX F20 is only compatible with AirFit F20 and AirTouch F20 masks.

## AirFit™ and AirTouch™ series of masks

AirMini is compatible with the N20 and F20 series of masks, as well as AirFit F30, P10 and N30 for AirMini.

### Start & Stop

With only one button, it's so easy to use your device every night.

### Bluetooth connection

Just press the Bluetooth button and synchronise your AirMini with your smart device.

### AirMini App

This smart device app allows you to manage your comfort settings and view your therapy progress. The AirMini App helps ensure you are swiftly set up for therapy.

# Power to go, freedom to move

Because AirMini solutions can deliver effective therapy from a small machine, you can take your therapy from the bedside table to the hotel room - and even to the great outdoors. It's simply small, convenient and smart.

## Freedom of choice

AirMini solutions are available with a range of accessories and customisation options so you can personalise your therapy to suit your needs and preferences.

These options include various algorithms, therapy modes and features, as well as different mask shapes and styles and accessories.

## Small

AirMini is the smallest<sup>2</sup> CPAP device ever manufactured.

## Smart

The AirMini App allows you to customise your therapy comfort to your individual needs and view your progress with ease.

## Proven<sup>1,3,4,5</sup>

AirMini features the same established algorithms as ResMed's AirSense range of sleep therapy devices.

# Trusted<sup>1,3,4,5</sup> therapy made compact

## Understanding your everyday needs

When it comes to your health, you shouldn't have to compromise on anything: comfort, ease of use, effective therapy, humidification\*, performance, size or mobility. These are standard features that you have the right to expect from your therapy. And AirMini delivers them.

## Technology that serves you

AirMini's innovative venting technology delivers effective therapy<sup>1,3,4,5</sup>, portable waterless humidification\* and uncompromised performance<sup>6</sup> to you, all in a small, light and lifestyle-friendly package.

HumidX and HumidX Plus are only compatible with AirFit N20, AirTouch N20, AirFit N30 and AirFit P10 for AirMini masks. HumidX F20 is only compatible with AirFit F20 and AirTouch F20 masks.

\* HumidX and HumidX Plus are only compatible with AirFit N20, AirTouch N20, AirFit N30 and P10 for AirMini masks. HumidX F20 is only compatible with AirFit F20 and AirTouch F20 masks.

# Engage with your well being with the AirMini App

## Track and manage your sleep quality

AirMini includes an engaging, informative app that's designed for new and experienced CPAP users alike. The AirMini App is a friendly, quick and convenient way to track your sleep data and manage your therapy. Download it to your smart device, sync it with your machine, and you're good to go!

## Get support at every stage of therapy

The AirMini App also provides coaching and timely personalised support, and gives you access to self-help tools to help you manage your therapy, care for your device and ease into treatment.

**Download app**  
Install the AirMini App on your smart device

**Sync your AirMini**  
Press the Bluetooth button on your AirMini and activate the Bluetooth option on your smart device

**Adjust features**  
Adjust comfort features like Ramp and EPR from the AirMini App

**Track your sleep**  
Check out your sleep score every morning

**Tips & coaching**  
Learn how to improve your comfort and sleep better

Stay connected...  
download the AirMini App now!

To keep you and your healthcare team connected, you can choose to send your detailed therapy data to your clinician/healthcare provider to support your ongoing therapy management and care.

## Travel accessories to make your journey easier

With a variety of optional accessories, the AirMini system is designed to suit your lifestyle.

A hard case offers protection, while a travel bag allows you to transport the entire AirMini system (tubing, mask and device) with ease. The DC/DC Converter 65W allows you to operate your machine from a vehicle's cigarette lighter socket.

The AirMini mount system even allows you to secure your AirMini in a variety of bedside configurations for greater convenience and discretion.
