AirFit™ F30i

Full face mask

The freedom you want,
the performance you need

Designed for freedom, AirFit™ F30i delivers full face performance with minimal facial contact. The under-the-nose cushion provides a wide field of vision while eliminating the risk of red marks and discomfort on your nasal bridge. And with its tube-up design, you can move freely and sleep in many positions.¹

Awaken your best fit.

- 1** **Top-of-head tube connection** makes it easy to sleep and move comfortably.¹
- 2** **Quick-release elbow** is designed for easy connection and disconnection of the mask from tubing.
- 3** **UltraCompact cushion** nestles under the nose, providing a wide field of vision while eliminating red marks and discomfort on the nasal bridge.
- 4** **Magnetic clips²** help guide the headgear to the frame, so the mask is easy to put on and take off.
- 5** **Soft open-edge headgear** is designed for extra softness and comfort.
- 6** **Optional soft wraps** can help add softness and comfort at the cheeks.

**14
DAY**

**MONEY BACK
GUARANTEE**

We're so sure that you will love our AirFit F30i full face mask, that we are offering a 14 day money back guarantee if you are not completely satisfied.

Terms and conditions apply.

4 out of 5 stars for overall seal and comfort²

AirFit F30i was highly rated by full face mask users in a ResMed study conducted in November 2018.

SIMILAR OPTIONS

AirFit™ F30

Full face mask

AirFit F30 is a small and lightweight tube-down compact full face mask. Featuring QuietAir™ vent technology, exhaled air is gently diffused to minimise noise and disturbance.

Speak to your ResMed Authorised Dealer for more information or to purchase the AirFit F30i.

It felt especially good when hugging my pillow on the side of my face. I like that the air tubing doesn't get tangled since it's completely away from my face.¹

- Full face mask user who tried AirFit F30i at home

¹ ResMed guided external clinical study of 48 evaluable current full face CPAP mask users from 24/10/2018 to 20/11/2018 in Sydney, AU and San Diego, CA, who trialled AirFit F30i and competitor full face mask at home. Data on file; ID A4484728.

² Use of masks with magnetic components is contraindicated in patients with the following pre-existing conditions: a metallic hemostatic clip implanted in the head to repair an aneurysm and/or metallic splinters in one or both eyes.
